

SECTION I - STAFF

TABLE "A"

Name of Officer	Nature of Appointment	Date of Appointment	Qualifications	Any other appointments held
ADD J.G. Henly	Asst. Port Medical Officer of Health	1.11.66	M.B., B.Chir.	Asst. Medical Officer of Health. Medical Inspector of Aliens.
DELETE. D.J. Stewart	Asst. Port Medical Officer of Health	Resigned 30.4.66.		
C.P.C. Parker	Chief Port Health Inspector	Retired 24.11.66.		
E.S. Piper	Launchman	Resigned 18.2.66.		

SECTION II - AMOUNT OF SHIPPING ENTERING THE
DISTRICT DURING THE YEAR

TABLE "B"

Ships from	Number	Tonnage	Number inspected		Number of ships reported as having, or having had during the voyage, infectious disease on board
			By the Medical Officer of Health	By the Port Health Inspector	
Foreign Ports	3,622	19,747,042	1,009	1,302	105
Coastwise	12,640	5,719,690	-	482	-
Total :-	16,262	25,466,732	1,009 ⁵	1,784	105

⁵ Of the 1,009 vessels, 974 were boarded by the Medical Officer alone and 35 were boarded by both Medical Officer and Port Health Inspector.

SECTION III - Character of Shipping and Trade during the year

TABLE "C"

Passenger Traffic	Number of Passengers Inwards	396,501
	Number of Passengers Outwards	408,525
Cargo Traffic	Principal Imports (Foreign)	Canned foods; dairy produce; fruit (deciduous); fruit (citrus); dried fruit, vegetables; meat and meat products; provisions; wines; miscellaneous frozen foods; grain; flour; animal feeding stuffs; timber; building materials; chemicals and chemical fertilizers; tobacco; crude and refined oils etc., miscellaneous
	Principal Exports	(Coastwise) Coal; transhipped goods and home produce. General manufactured goods; textiles; grain and flour; food and provisions; machinery; iron and steel; motor cars, etc.
Principal Ports from which ships arrive	Principal Imports (Foreign)	Aden; Agadir; Antwerp; Amsterdam; Auckland; Baltic Ports; Barbados; Bordeaux; Boston; Bremen; Bremerhaven; Brisbane; Buenos Aires; Capetown; Cherbourg; Colombo; Corunna; Curacao; Durban; Dieppe; Famagusta; Fort de France; Freemantle; Gdansk; Gdynia; Guernsey; Genoa; Georgetown; Haifa; Halifax; Hamburg; Hamina; Hong Kong; Jersey; Kingston; Kuwait; La Guaira; Le Havre; Lco. Marques; Madeira; Melbourne; Mena al Ahmadi; Mersa el Brega; Montreal; Naples; New York; New Orleans; Philadelphia; Port Elizabeth; Port Said; Port Antonio; Quebec; Rotterdam; Rouen; Sidon; Singapore; Sydney; Tangiers; Teneriffe; Toronto; Trinidad; Wellington; Yokohama.
	Principal Exports	SECTION IV - Inland Barge Traffic Not applicable to this Port.

SECTION V - WATER SUPPLY

1. SOURCE OF SUPPLY FOR (a) The District and (b) Shipping.

No change

2. REPORTS OF TESTS FOR CONTAMINATION

Analysis of drinking water taken from Dock Hydrants.

17 samples of drinking water were taken from dock hydrants, and were submitted to the Public Health Laboratory, Southampton, for bacteriological examination; on analysis the samples were found to be satisfactory.

The following table shows the results of the water samples which were analysed :-

BACTERIOLOGICAL EXAMINATION

No. of samples taken	No. of presumptive coliform organisms per 100 ml.				Bact. Coli Type 1 present	No. of samples unsatisfactory	No. of samples satisfactory
	Less than 1	1 - 2	3 - 10	More than 10			
17	15	1	1	-	-	-	17

Analysis of Drinking Water supplied to the Docks.

Special sampling taps are installed at the following locations within the dock area for the purpose of checking the purity of the water supply :-

(1) Port Health Office	-	Eastern Docks
(2) Transformer House	-	Western Docks (East end)
(3) Pump House	-	Western Docks (West end)

Samples of water are taken fortnightly from each of these taps by the department of the City Waterworks Engineer and Manager and submitted for bacteriological examination.

Analysis of Ships' Drinking Water.

251 samples of drinking water taken from 74 vessels were submitted to the Public Health Laboratory Service for bacteriological examination.

On analysis 18 samples examined bacteriologically were found to be below the standard of purity desirable for ships' supplies.

In all cases where results of analysis revealed contamination further investigation was made and remedial measures were prescribed to the masters, owners or agents of the vessels concerned.

The following table shows the results of the water samples which were analysed :-

BACTERIOLOGICAL EXAMINATION

No. of vessels	No. of samples taken	No. of presumptive coliform organisms per 100 ml				Bact. Coli Type 1 present	No. of samples unsatisfactory	No. of samples satisfactory
		Less than 1	1 - 2	3 - 10	More than 10			
74	251	218	11	10	12	5	18	233

3. PRECAUTIONS TAKEN AGAINST CONTAMINATION OF HYDRANTS AND HOSEPIPES.

No change

4. NUMBER AND SANITARY CONDITION OF WATER BOATS, AND POWER OF CONTROL BY THE AUTHORITY.

No change

SECTION VI - PUBLIC HEALTH (SHIPS) REGULATIONS, 1966

1. LIST OF INFECTED AREAS (REGULATION 6)

No change

2. RADIO MESSAGES

No change

3. NOTIFICATIONS OTHERWISE THAN BY RADIO (REGULATION 14 (1)(b))

No change

4. MOORING STATIONS (REGULATIONS 22 TO 30)

No change

5. ARRANGEMENTS FOR -

No change

SECTION VII - SMALLPOX

1. NAME OF ISOLATION HOSPITAL TO WHICH SMALLPOX CASES ARE SENT FROM THE DISTRICT.

Weyhill Hospital, near Andover.

2. ARRANGEMENTS FOR TRANSPORT OF SUCH CASES TO THAT HOSPITAL BY AMBULANCE, GIVING THE NAME OF THE AUTHORITY RESPONSIBLE FOR THE AMBULANCE AND THE VACCINAL STATE OF THE AMBULANCE CREWS.

The Southampton Corporation control and maintain a fleet of Ambulances at the Health Centre, East Park Terrace, and the transport of smallpox cases to hospital is effected by an ambulance from the depot.

All the crews are offered vaccination annually.

3. NAME OF SMALLPOX CONSULTANT AVAILABLE.

Dr. Angus McGregor, Medical Officer of Health.

4. FACILITIES FOR LABORATORY DIAGNOSIS OF SMALLPOX.

All material from smallpox or suspected smallpox cases for which laboratory diagnosis is required, is sent to the Central Public Health Laboratory, Colindale Avenue, The Hyde, London, N.W.9.

SECTION VIII - VENEREAL DISEASE

Information as to the location, days and hours of the available facilities for the diagnosis and treatment of venereal disease among merchant seamen under international arrangements, including in-patient treatment and the steps taken to make these facilities known to seamen.

The treatment centre in Bullar Street, Southampton, and a clinic situated in the Eastern Docks are devoted entirely to the treatment of venereal diseases, and provide all facilities for treatment for sailors under the International Convention.

The 2 clinics are open at the following times :

Town Clinic: Monday to Friday 0900 - 1200 hours
 1700 - 1900 hours

Dock Clinic: Monday to Friday 0900 - 1000 hours
 1600 - 1700 hours
Saturday 0900 - 1000 hours

The Centres are under the supervision of a full-time medical officer and facilities are provided for daily treatment. The treatment centres have the full co-operation of ships' surgeons and shipping companies, who accept certificates of fitness to resume duty issued by the medical officer.

Cases of venereal disease on board vessels in the port coming to the notice of the port medical officers, are referred, in the first instance, to the centre in Bullar Street, and subsequently receive further treatment either at the centre or at the clinic situated in the docks.

In-patient treatment is provided at the General Hospital, Southampton.

Leaflets giving particulars of the facilities available are left by the port health inspectors on board vessels visited by them, and particulars are also given to seamen making application at the Port Health Office.

Notices giving particulars about these diseases are fixed in all the public conveniences in the docks.

SECTION IX - Cases of notifiable and other infectious
diseases on ships

TABLE "D"

Category	Disease	Number of cases during the year		Number of ships concerned
		Passengers	Crew	
Cases landed from ships from foreign ports	Chickenpox	18	3	15
	Encephalitis	-	1	1
	Gastro Enteritis	1	-	1
	German Measles	-	1	1
	Glandular fever	2	3	4
	Infective Hepatitis	1	5	5
	Influenza	1	1	2
	Measles	74	-	19
	Mumps	3	1	4
	Pneumonia	4	1	4
	Pyrexia	1	-	1
	Tonsillitis	3	1	3
Cases which have occurred on ships from foreign ports but have been disposed of before arrival	Tuberculosis	3	3	6
	Venereal Disease	2	4	5
	Chickenpox	1	-	1
	German Measles	1	-	1
	Measles	3	-	2
	Mumps	2	-	2
Cases landed from other ships	Poliomyelitis	-	1	1
	Pyrexia	1	-	1
		-	-	-

SECTION X - OBSERVATIONS ON THE OCCURRENCE
OF MALARIA IN SHIPS

There was no report of any cases infected during the voyage on any ship arriving in the port.

SECTION XI - MEASURES TAKEN AGAINST SHIPS INFECTED
WITH OR SUSPECTED FOR PLAGUE

No ship arrived on which plague or suspected plague was reported during the voyage.

SECTION XII - MEASURES AGAINST RODENTS IN SHIPS
FROM FOREIGN PORTS

1. PROCEDURE FOR INSPECTION OF SHIPS FOR RATS

A number of vessels for which Southampton is the terminal port for passenger disembarkation and discharge of cargo, are regularly inspected every six months for the renewal of the Form Port II Certificate. Routine inspections are also carried out by the port health inspectors during the interim period of the granting of such Certificates to these vessels.

Where practicable, routine inspections for evidence of rat infestation are made by the port health inspectors and rodent operator on all other vessels arriving at the Port, and in special circumstances daily inspections of ships holds are carried out during the period of the discharge of the cargoes.

2. ARRANGEMENTS FOR THE BACTERIOLOGICAL OR PATHOLOGICAL EXAMINATION OF RODENTS; WITH SPECIAL REFERENCE TO RODENT PLAGUE, INCLUDING THE NUMBER OF RODENTS SENT FOR EXAMINATION DURING THE YEAR.

A proportion of rats caught on vessels, and all rats found dead from causes not apparent, are submitted to the Public Health Laboratory in Southampton for examination. 2 rats were sent to the laboratory.

3. ARRANGEMENTS IN THE DISTRICT FOR DERATTING SHIPS, THE METHODS USED; AND, IF DONE BY A COMMERCIAL CONTRACTOR, THE NAME OF THE CONTRACTOR.

Professional ratcatchers are available in the port and are employed by the shipping companies in all cases where methods of trapping or poisoning are considered adequate by the Port Health Authority for dealing with slight or moderate infestations on ships.

In cases of pronounced or widespread rat infestations, the deratting of ships is carried out by fumigation contractors using cyanide gas or other approved methods.

The following commercial contractors are available for such purposes :-

Rentokil Laboratories Ltd., 112, Victoria Dock Road, London, E.16.

The London Fumigation Co., Ltd., 7 Morocco Street, London, S.E.1.

Contra-Pest Service Ltd., 2, Ranelagh Road, London, E.6.

4. PROGRESS IN THE RAT-PROOFING OF SHIPS

Schedules of work are served on shipping companies in all cases where it is found necessary to correct or protect rat harbourages or runs in vessels requiring Deratting Exemption Certificates.

TABLE "E"

Rodents destroyed during the year in ships from Foreign Ports

Category	Number
Black rats	3
Brown rats	Nil
Species not known	Nil
Sent for examination	2
Infected with plague	Nil

TABLE "F"

Deratting Certificates and Deratting Exemption Certificates issued during
the year for ships from foreign ports

H.C.N.	No. of Deratting Certificates issued			Number of Deratting Exemption Certificates issued	Total certificates issued
	After fumigation with trapping	After poisoning	Total		
1	Other fumigant	3	4	5	6
Nil	Nil	Nil	Nil	199	199

SECTION XIII - INSPECTION OF SHIPS FOR NUISANCES

TABLE "G"

INSPECTIONS AND NOTICES

Nature and number of inspections	Notices served		Result of serving notices
	Statutory notices	Other notices	
189 comprising			
Structural defects through wear and tear	19	Nil	189 Complied 157
Dirt, vermin and other conditions prejudicial to health	264		
Total 189	(283)	Nil	189 157

SECTION XIV - PUBLIC HEALTH

(SHELL-FISH) REGULATIONS

1934 and 1948

Information respecting any shell-fish beds or layings within the jurisdiction of the Authority stating whether they are, in the opinion of the Medical Officer of Health, liable to pollution. A report of any action taken, which should state whether any prohibited area has been prescribed, should be included.

The Southampton Shell-Fish Order, 1953, made under the above Regulations prohibits the collection for sale for human consumption of cockles, winkles, mussels, butterfish, or whelks taken from that part of the area over which the Port Sanitary Authority extends by virtue of the Southampton Port Sanitary Order, 1935, north of a straight line drawn from Stone Point on the west boundary to Hill Head on the east boundary of such area.

Clams were not covered by the Council's existing Shell-Fish Order of 1953.

The Council was approached by a firm who proposed, subject to the approval of the Medical Officer of Health, to harvest clams from layings in the upper reaches of Southampton Water.

The Southampton Shell-Fish Order, 1965, made under the above Regulations prohibits the distribution for sale for human consumption of clams taken from the prescribed area in Southampton Water unless such clams have been relaid or sterilised by an approved process.

Copies of the Orders are posted at various points during the year, and the prohibitions are also brought to the notice of the public by the annual insertion of the Orders in the local press.

Observations have been made from time to time during the year by officers of this Authority; no infringement of the Orders have been noted.

SECTION XV - MEDICAL INSPECTION OF ALIENS

1. List of Medical Inspectors of Aliens holding Warrants of Appointment

Dr. Angus McGregor	Dr. Catherine M. Atkins
Dr. W.P.Cargill	Dr. F.T.R. Hollins
Dr. H.D.Rossiter	Dr. J.J.Phillips
Dr. D.J.Stewart (until 30.4.66)	Dr. P.M.Seymour Cole (until 28.2.66)
Dr. J.G.Henly (from 1.11.66)	Dr. Betham Davies
	Dr. A.C.Franks
